

MEET CAMERON SMITH

SENIOR TECHNICIAN

AT READING SCIENTIFIC SERVICES (RSSL)

The best part of my job is that there is always something new to learn.

I analyse chemicals which will be used in medicines and pharmaceutical products to check their purity.

My plan is to keep gaining experience in new techniques and become better at using equipment. This will help me gain more responsibility within the lab or move to a new group to gain a greater variety of skills.

My biggest challenge? Following strict guidelines on documenting everything I do in the lab.
