CITY DEAL	<p><b>Apprenticeship Programme</b></p> <p>525 apprenticeships for young people (16-23)</p> <p><b>SARAH CULLIMORE</b></p>	Drive better employability skills in young people	Increase the number of apprenticeships	<p>Economy and Skills team.</p> <p>Oxfordshire Skills Board</p>	<p>Delivery of skills element of the City Deal including: Supporting making sense of apprenticeships for employers.</p> <p>Delivering 'apprenticeship' events aimed at young people and parents.</p> <p>Engagement with secondary schools to increase awareness of apprenticeships.</p> <p>Co-ordinating National Apprenticeship week activity</p> <p>Additional 525 apprenticeship starts aged 16-24</p>	The City Deal funding ends in March 2017 but there will be ongoing monitoring of targets	<p>City Deal programme has now come to an end and all funding has been drawn down with all actions agreed delivered.</p> <p>OA has supported or run 131 school events including apprenticeship careers events, talks in assemblies and workshops.</p> <p>Apprenticeship awards were rescheduled from March to 24<sup>th</sup> April.</p> <p><b>From 17/18 operating plan</b></p>	<p>Latest full academic year Apprenticeship figures available are up until the end of July 2017 and are rounded to the nearest 10. There were 2,310 16-24-year-old Apprenticeship starts during the 2016/17 academic year (August 2016 – July 2017), compared with 2,590 during the same period the previous year (a decrease of 10.8%).</p> <p>All age apprenticeships have decreased by 6.7% over the same time period.</p> <p>A significant decrease has also been seen nationally resulting in claims that the levy has not had the intended consequence of encouraging employers to create more apprenticeship vacancies.</p> <p>The City Deal apprenticeship programme is therefore completed. Although Oxfordshire has performed well when compared with figures for the South East and England the additional apprenticeships have not been delivered as planned. This is due in part to the 2012/13 base year which saw an exceptional spike in new starts, which we believe is a consequence of the increase in University tuition charges moving to £9k and in part to do with the introduction of the levy as mentioned above.</p>	

## Oxfordshire Local Enterprise Partnership Completed Projects

<p><b>CITY DEAL</b></p>	<p><b>Skills Programme</b> 150 more employers engaged with traineeships</p> <p><b>SARAH CULLIMORE</b></p>	<p>Up-skill identified cohorts</p>	<p>Tackling pockets of unemployment</p>	<p>Oxfordshire Skills Board</p> <p>Economy and Skills team</p>	<p>Develop a network of apprenticeship ambassadors to promote at events etc.</p> <p>Negotiate Traineeships targets in employment and skills plan</p> <p>Include Traineeships info on OA website</p> <p>150 unemployed individuals engaged with traineeships</p>	<p>N/A</p>	<p>There are 23 current ambassadors have who have between them supported 49 events since April 16 as well as being featured on local radio, Oxford TV and in local press.</p> <p>Traineeship target included in Westgate ESP.</p> <p>Traineeship info is on the OA website.</p> <p>In excess of 220 unemployed individuals are engaged with traineeships.</p> <p><a href="#">From 16/17 Operating Plan</a></p>	<p>The SFA is not able to provide employers data and information therefore an alternative target has been measured of unemployed individuals engaging with traineeships.</p>	
<p><b>CITY DEAL</b></p>	<p><b>Apprenticeship Programme</b></p> <p>300 apprenticeship grants for employers (AGE) grants targeted at SME in the growth sector</p> <p><b>SARAH CULLIMORE</b></p>	<p>Drive better employability skills in young people</p>	<p>Increase the number of apprenticeships</p>	<p>Oxfordshire Skills Board</p> <p>Economy and Skills team</p>	<p>Delivery of City Deal skills action plan.</p> <p>300 AGE grants targeted at SME in the growth sector</p>	<p>N/A</p>	<p>Eligibility rules for the AGE changed in January 2015. Info has been put onto the OA website.</p> <p><a href="#">From 16/17 Operating Plan</a></p>	<p>670 AGE grants were awarded to Oxfordshire employers during 2014/15 academic year (Aug 2014 to July 2015)</p> <p>City Deal target has been met.</p>	
<p><b>CITY DEAL</b></p>	<p><b>Apprenticeship Programme</b></p> <p>1850 more employers with a raised awareness of apprenticeships</p> <p><b>SARAH CULLIMORE</b></p>	<p>Drive better employability skills in young people</p>	<p>Increase the number of apprenticeships</p>	<p>Oxfordshire Skills Board</p> <p>Economy and Skills team</p>	<p>A range of activities aimed at promoting the benefits of apprenticeships to employers attending network events, follow up leads from website hits etc.</p> <p>1850 more employers with a raised awareness of apprenticeships</p>	<p>1,850 more employers with an increased awareness of apprenticeships over the lifetime of the CD project (April 2014-March 2017)</p> <p>Delivery of events aimed at employers.</p> <p>Attendance at employer networking events to promote apprenticeships.</p> <p>Follow up leads from employers.</p>	<p>A total of 107 networking and employer events have been attended to promote apprenticeships over the 3 years of the project, including the delivery of 8 'making sense of Apprenticeships' events.</p> <p>1,894 interactions with employers have been recorded since the project began.</p> <p><a href="#">From 16/17 Operating Plan</a></p>	<p>City Deal target has been met.</p>

## Oxfordshire Local Enterprise Partnership Completed Projects

<p><b>CITY DEAL</b></p>	<p><b>The Oxford Bio-Escalator</b></p> <p><b>PHIL CLARE</b></p>	<p>Hub focused on the life sciences sector;</p>	<p>Invest in an ambitious network of new innovation and incubation centres which will nurture small businesses:</p>	<p>University of Oxford</p>	<p>The vision for the Oxford BioEscalator is</p> <ul style="list-style-type: none"> <li>- To realise the potential of the world class medical research and clinical expertise in Oxford and the surrounding region</li> <li>- To develop a leading international hub for enabling early-stage medical innovation to move from the lab to the clinic.</li> <li>- To pioneer a new model for bioscience business growth that will reduce the risk associated with early stage firms, stimulate new funding and create resilient, sustainable companies.</li> </ul>	<p>Attract innovative medical science companies as tenants, ramping up occupancy from summer 2018.</p> <p>Create an entrepreneurial community around the BioEscalator.</p>	<p>The BioEscalator is filling up very quickly with high-potential, IP-focused companies and interest remains high. We are making arrangements to fit out a basement space to help to meet demand. Our first two non-Oxford companies have moved in and are settling well into the Oxford ecosystem; they are already taking advantage of being close to Oxford University researchers.</p> <p>The BioEscalator is proving to be an important and highly visible hub for bioscience entrepreneurship. We are working with a wide range of partners to bring exciting courses and events to the BioEscalator for tenants, University and the entrepreneurial medical ecosystem in Oxfordshire. This includes OBN, BIA, MHRA and Innovation Forum. We are also building a great community within the BioEscalator, building links between tenants and with the University research groups.</p> <p>We are planning the official launch of the BioEscalator in late spring 2019.</p> <p>We are currently undertaking a feasibility study to understand whether there is a market need for BioEscalator II and what sort of space that would provide.</p> <p><a href="#">From 18/19 Operating Plan</a></p>

## Oxfordshire Local Enterprise Partnership Completed Projects

<p><b>CITY DEAL</b></p>	<p><b>The Begbroke Innovation Accelerator</b></p> <p><b>PHIL CLARE</b></p>	<p>Hub focused on advanced engineering sectors</p>	<p>Invest in an ambitious network of new innovation and incubation centres which will nurture small businesses:</p>	<p>University of Oxford</p>	<p>The Oxford University Begbroke Science Park (BSP) has pioneered the successful integration of academic and business communities to foster knowledge and technology transfer, economic growth, and academic advancement. The Accelerator project builds on this in the advanced engineering sectors of automotive, nuclear materials, advanced materials, robotics, nano-medicine, pharmaceuticals, motorsport and supercomputing. Through the co-location of business and technology it will enhance the successful transition of ideas across the valley of death into the market place and give support for companies with training, networking and mentoring activities.</p>	<p>The Begbroke Innovation Accelerator (which forms a new extension to the CIE – Centre for Innovation and Enterprise) continues to encourage smaller spin outs, start-ups and those in “proof of concept” stage, through the new laboratory spaces and the recently fitted out “shared laboratory space” for multiple tenants, pioneering a membership approach. We have welcomed 3 new businesses into the shared space.</p> <p>The whole building (CIE) continues to be at steady state occupancy of greater than 95%, (managing positive churn and allowing for movements in and out of the Accelerator), whilst attracting a waiting list of potential tenants and spin outs for future grow on space.</p> <p>We have also attracted some Industry partners to the University and into the Accelerator from International locations, encouraging inward investment into the region.</p> <p>We continue to utilise the meeting spaces within the Accelerator to host workshops and meetings for training, networking and research funding activities. We have developed a Barista Café lounge in the open shared meeting space which has further encouraged interaction across spin outs and businesses, including meeting pods to foster interactions.</p>	<p>The Begbroke Innovation Accelerator project (new extension to the CIE) is now over 24 months into operation following the formal opening which took place 17<sup>th</sup> March 2017. The Innovation Accelerator extension to the existing Centre for Innovation and Enterprise (CIE) continues to welcome a number of new spin outs, some of whom are already increasing in size and success in subsequent funding rounds to the point of now requiring additional grow on and scale up space. The CIE is now more than double its original size. The 2200m<sup>2</sup> extension brings the building up to a total of 4000m<sup>2</sup>. A number of spin outs and R&amp;D companies that have benefitted from the Accelerator, have now successfully grown to take up space in other science and tech parks in the Oxfordshire region.</p> <p>The building is performing well, and all the spaces are currently let and occupied, with discussions over growth and churn spaces and a healthy waiting list of potential future tenants.</p> <p>The new Accelerator has recently been granted its BREEAM Excellent Certification.</p> <p>Existing CIE occupiers and new tenants take advantage of the multiple opportunities for interaction and some R&amp;D businesses have grown into larger spaces on the Campus allowing new spin outs and R&amp;D businesses to join the Accelerator. We continue to explore potential for grow on and scale up opportunities.</p> <p><a href="#">From 18/19 Operating Plan</a></p>	
-------------------------	----------------------------------------------------------------------------	----------------------------------------------------	---------------------------------------------------------------------------------------------------------------------	-----------------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--

## Oxfordshire Local Enterprise Partnership Completed Projects

CITY DEAL	<b>QUAD 1 (was the Harwell Innovation HUB)</b>  <b>TIM BESTWICK</b>	Hub: focused on open innovation	Invest in an ambitious network of new innovation and incubation centres which will nurture small businesses.	STFC	Start on site November 2016, practical completion October 2017  Project programme dates revised and agreed following agreement with BIS.	Target for Practical Completion in October 2017.	The build is complete, and occupiers are fitting out  5 SME occupiers are in place with a final 2 small offices under offer to a further 2 SME occupiers  The formal opening is being planned for summer 2018  From 17/18 operating plan		
GROWING PLACES FUND (ROUND 1)	<b>EZ Project Manager (£150,000)</b>  <b>Anna Robinson</b>	Coordinating the delivery of infrastructure and growth across the EZ	Will accelerate the availability of sites and premises making the EZ attractive to investors	Vale of White Horse District Council – contract holder	Appointment of project manager  Targets to improve infrastructure enabling new investment	N/A	Substantial progress on a range of transport and broadband infrastructure projects.  From 16/17 Operating Plan	Complete	
GROWING PLACES FUND (ROUND 3)	<b>Reaction Engines Ltd (£140,000)</b>  <b>Tom Scrope</b>	Setting up a QA department for revolutionary jet/rocket engine prototype	Supporting business growth in space sector at Harwell EZ	Reaction Engines Ltd	Acquiring specialist testing equipment  Set up and staffing of QA department	The production output of our facility is anticipated, and will be budgeted, to rise. This may in turn precipitate additional hiring over and above what was committed. Reaction Engines has increased its workforce substantially both technically and in support roles and at Aug-16 the payroll amounts to 100 people (a 40% increase in the year). This is anticipated to rise by a further 20 – 30% through 2017.  Whilst the milestones of the project have been hit, the remaining payments look secure with the next due in late March 2017.	In the FY 2016/17 the company secured a £20m investment from BAE Systems, in no small part due to our high-end manufacturing; it is not unfair to say that our recent quality control procedures, brought about by the LEP funding, helped contribute to attracting this investment.  From 16/17 Operating Plan	Funding agreement completed  Specialist testing equipment acquired  2 new QA personnel have been recruited  Loan repaid in full early March 2017.  For more details please see case study <a href="http://www.oxfordshirelep.com/sites/default/files/OxLEP%20Reaction%20Engines%20Article%20Master.pdf">http://www.oxfordshirelep.com/sites/default/files/OxLEP%20Reaction%20Engines%20Article%20Master.pdf</a>
