Oxfordshire Local Enterprise Partnership Operating Plan 2020/21

<p>LGF1</p>	<p>Oxford Centre for Technology and Innovation</p> <p>City of Oxford College – Activate Learning</p>	<p>Increased levels of Science, Technology, Engineering and Maths (STEM) in line with Skills Strategy aspirations</p>	<p>145 new learners assisted in courses leading to a full qualification by March 2025.</p> <ul style="list-style-type: none"> - 15 in 17/18 (13 delivered) - 15 in 18/19 (67 delivered) - 22 in 19/20 - 23 in 20/21 - 70 in 21-25 <p>8 new employees by March 2025 – 2 already delivered in 16/17</p>	<p>22 new learners assisted in courses leading to a full qualification by March 2020.</p> <p>6 new employees recruited, specifically to support the development of an Institute of Technology.</p>	<p>LGF1 buildings in Engineering and Electrical Installation were designed to allow large group sizes. As we returned to work in June, the design of these buildings helped implement social distancing measures. Student applications look positive for 2020/21 and planning is underway to embed the new Institute of Technology (IOT) into our existing campus. and the LGF1 buildings.</p> <p>In lockdown, our teachers have been teaching students based at the Technology Campus remotely.</p> <p>We are planning to host a City and Guilds Conference towards the end of the summer term which will help our work on locking in technician level pathways alongside our existing engineering pathways. The reputation of the campus as a centre for STEM is growing. This has resulted in the successful awarding of IoT status in partnership with Milton Keynes College and Cranfield University. The project has attracted capital to refurbish an additional building on the site allowing us to grow our STEM provision into L4 and Higher Apprenticeship provision in digital. Plus, plans have been finalised to turn the centre into a STEM hub for our Thames Valley provision.</p> <p>The number of student projects co-created with employers and industry leads continues to grow and the workshop facilities available via LGF1 allow us to implement multi-disciplinary projects. One, a heritage project in collaboration with Jaguar Land Rover, will be worth following as the project gets underway.</p> <p>New intake of Engineering students has met our early recruitment targets. We are also seeing very positive growth in student numbers in Electrical Installation.</p>

Oxfordshire Local Enterprise Partnership Operating Plan 2020/21

<p>LGF1</p>	<p>Oxford Flood Alleviation Scheme</p> <p>Environment Agency</p>	<p>1) Reduce flood damages to at least 1000 homes and businesses currently at risk in Oxford</p> <p>2) Reduce flood risks to infrastructure and utilities in Oxford</p> <p>3) Safeguard Oxford's reputation as a thriving centre of commerce that is open for business</p> <p>4) Create and maintain new recreational amenities, wildlife habitat and naturalised watercourses accessible from the centre of Oxford.</p>	<p>Ongoing approval of Full Business Case by government</p> <p>Securing authorisations needed (planning and land agreements)</p> <p>Finalisation of scheme design and construction arrangements</p> <p>Construction begins TBC</p> <p>Construction Complete TBC</p>	<p>Archaeology surveys – Summer 2020</p> <p>Ecological Surveys – Spring / Summer 2020</p> <p>A423 bridge works begin – Summer 2020</p> <p>Flood Exercise – Aug 2020</p> <p>Preparation of updated planning application – Spring 2021</p>	<p>Over the last three months, the Oxford Flood Alleviation Scheme project team have been working hard to ensure that the scheme remains on programme despite the restrictions in place due to Coronavirus.</p> <p>We are continuing to work with Oxfordshire County Council to ensure that their design for the A423 bridge offers the capacity our scheme needs. Oxfordshire County Council will be starting their safeguarding (propping) works in July, which is the first step towards replacing the A423 bridge.</p> <p>We have worked hard with our contractors, Jacobs and VBA, to ensure that important ecological and archaeological survey work can still be completed to plan whilst complying with social distancing guidelines.</p> <p>Alongside the redesign work we are taking this opportunity to explore greater opportunities for the scheme to facilitate wider environmental benefits and reduce the carbon impact. All of this will feed into an updated planning application and Compulsory Purchase Order in 2021.</p> <p>We remain fully engaged with landowners and local communities, especially those who have previously made objections to the scheme. We continue to work with partner organisations and the local communities to ensure there are robust plans in place should any flooding occur whilst the scheme remains in development. We will be holding a flood incident exercise in August where we will be testing the deployment of flood barriers in the local area.</p>

Oxfordshire Local Enterprise Partnership Operating Plan 2020/21

ERDF	<p>eScalate</p> <p>OxLEP Business – Growth Hub</p>	<p>Build on and continue to raise awareness and strengthen the range of support available from Oxfordshire Business Support (Oxfordshire’s Growth Hub)</p> <p>Develop World Class Oxfordshire Scale Up programme in line with Local Industrial strategy commitments in collaboration with key Oxfordshire stake holders</p> <p>Successful delivery of ERDF programme – supporting Social Enterprise and Access to Finance</p>	<p>Build on and continue to raise awareness and strengthen the range of support available from Oxfordshire Business Support</p> <p>To simplify, continue to raise awareness and encourage greater engagement and interaction of the business support.</p> <p>Run a number of scale up round tables working with local/national stakeholders including Scaleup Institute and British Business Bank</p> <p>Achievement and completion of all ERDF targets by December 2022</p>	<p>Expand the delivery on the Scale-up side of the programme to include a subsidised scale-up programme and one to many activities alongside one to one support.</p> <p>Continue to deliver the social enterprise programme of workshops, peer to peer and one to one support.</p> <p>Work closely with sub-contractors to improve delivery of outputs and increase spend.</p> <p>Utilise the opportunity available from MHCLG to flex the programme under COVID enabling more generic start up and growth business support within eScalate.</p>	<p>Scale-up:</p> <p>The eScalate programme advisor contract was terminated in May 2020. The same month the contract was re-advertised. This tender is due to close on 12th June. As such, there has been little activity on the 1:1 support for access to finance/investment readiness. Clients have been supported by colleagues from across the Growth Hub in order to maintain relationships and support.</p> <p>During May a three written quotes exercise took place to procure a scale-up programme. This was awarded to Oxford Brookes. Through this the eScalate programme will part pay for eligible scale-up businesses to take part in this programme.</p> <p>Social enterprise:</p> <p>The social enterprise programme delivered by OSEP (sub-contractor) is up and running. As reported in March 2020 delivery has been adapted to continue under COVID-19 restrictions. This is causing some issues with getting paperwork back from clients but other than that is successful. The advisor is meeting with clients on a 1:1 basis. There have been 3 webinars a month covering a variety of topics. The first peer to peer groups began in May:</p> <p>Grants:</p> <p>As reported at the last quarter we have moved to a ‘rolling’ grant programme with deadlines on the first and third Fridays of each month. In April and May the Panel has approved three grants totaling just short of £50K. We continue to work closely with existing grant recipients to amend their project or timelines to accommodate the impact of COVID on their plans.</p> <p>The programme is rag rated amber as it remains under profile on both spend and outputs. However, mitigation is in place:</p>
------	--	---	--	--	--

Oxfordshire Local Enterprise Partnership Operating Plan 2020/21

<p>EDRF</p>	<p>Innovation Support for Business (ISfB) Phase 2</p> <p>OxLEP Business Support Team as Lead Delivery Partner with Oxfordshire County Council (OCC) as the accountable body. Other Delivery Partners are Cherwell DC, Oxford CC, Oxford University NHS Foundation Hospitals Trust and the University of Oxford.</p>	<p>The successful delivery of the ERDF Priority Axis 1 Research and Innovation Grant Funding Agreement</p>	<p>Support SMEs to innovate, support the development of the innovation ecosystem and improve business access to research institutions.</p> <p>Continued achievement and completion of ERDF targets in line with agreed contract.</p> <p>Re-visit historic clients to ensure all outputs have been claimed.</p>	<p>All deliverables except C26 and P02 are cumulatively on or ahead of target. We are slightly behind on profile for the C26 target by 1, we are working with our partners to encourage collaboration events to help achieve this target as well as working closely with our grant recipients to obtain evidence of their C26 impacts achieved as a result of their Go-Create grant.</p>	<ul style="list-style-type: none"> • SME's continue to attend Workshops and receive 1:1 support from the ISfB advisor at OxLEP and through our partners who have a variety of specialisms. • The Innovation advisor is delivering grant / business support surgeries on a weekly basis (every Wednesday). He is continuing to deliver these using Microsoft Teams and is speaking to an average of 12 – 15 clients a week. • Offering open grant rounds to respective clients has been successful, we will continue to run open grants and monitor this on a quarterly basis. • This quarter we have made 7 payments against a total SME grant costs of £80k. • Total grants offered this quarter £212,747 <p>Planned delivery for the next quarter</p> <ul style="list-style-type: none"> • Continue to run rolling grant rounds and monitor impact • Support and encourage existing clients to submit claims • Review marketing strategy to ensure we are focusing on the right target market • Several partners finish delivering on the programme in September. We will support them to achieve their targets, both financially and to achieve their Outputs.

Oxfordshire Local Enterprise Partnership Operating Plan 2020/21

<p>LGF3</p>	<p>Connected and Autonomous Vehicles at Culham (previously Smart Oxford: Culham City)</p> <p>UKAEA / RACE</p>	<p>To host a growing community of those developing CAV vehicles and associated products and services</p>	<p>Provide an urban test bed for the testing of CAV and ancillaries</p> <p>Provide specialist test and evaluation equipment and services.</p> <p>Host a growing number of companies active in the sector.</p> <p>48 new jobs</p>	<p>Finish construction of the Pit Lane workspaces</p> <p>Construct, fit out and commission new Control Centre</p> <p>Install dedicated DSRC and 4G networks to support connected-CAV operation</p> <p>Upgrade Culham site infrastructure</p> <p>Develop relationships with digital twins</p> <p>Work with Millbrook Proving Ground to extend CAV testing offer</p> <p>Tenant in place for two out of four units.</p> <p>41 new jobs (cumulative)</p>	<p>- Building is complete, handover has taken place and the 3 of the 4 units are in use. End of first year snagging visit has been scheduled and once any remedial work required has been completed the final tranche of the retention sum will be released. Marketing of the units continues. In the past month we have had enquiries from two commercial companies seeking quotes to take Pit Lane units on short term lets.</p> <p>-We have occupied the control centre. Whilst the meeting room/hot desk space are available for use Covid restrictions means that this space has not been available for use in the past quarter.</p> <p>- Installation of CCTV and DSRC has been completed but final commissioning/handover is delayed due to the need for face-to-face training to take place. LTE order placed and are discussing installation timetable with our supplier.</p> <p>- Smart traffic light procurement work has been split into two lots in order to increase options and speed overall delivery. An order for the groundworks component has been placed. A tender for the (smart) head units and connected aspects is in preparation,.</p> <p>- We continue to working with Zenzic to establish a common format for digital twins of all UK testbed sites and that we have a suitable data set that we can contribute.</p> <p>- We continue to work with Millbrook to promote our capabilities and align our combined market offering. We continue to engage with potential users as they prepare funding bids. We have received a number of such enquiries in recent months.</p> <p>- A long term tenant is in place for one of the units.</p>

Oxfordshire Local Enterprise Partnership Operating Plan 2020/21

<p>LGF3</p>	<p>Prodrive Powertrain Technology Centre</p> <p>Prodrive</p>	<p>A new high technology transient dynamometer centre for the testing and development of engines and innovative vehicle propulsion systems which use conventional fuels, electric and hybrid power, for a range of sectors including automotive, motorsport, marine, defense and aerospace.</p>	<p>Centre to be built and equipped by May 2019</p> <p>23 direct jobs by 2021</p>	<p>Centre to be equipped by May 2019</p> <p>23 direct jobs to be created at Prodrive by 2021</p>	<p>The Centre has been completed and is operational. There was an overspend on the original forecast budget creating a larger match to funding provided.</p> <p>21 direct jobs created up to June 2020 (2 new since the last update) as we start to take on personnel for our Dakar programme mentioned below. The recruitment is slower than planned due to COVID 19 but on a positive we are not making any redundancies in this area of the business. We still need to recruit a further 3 people in Q4 2020 for the programme in the powertrain area.</p> <p>Due to demonstrating our new Powertrain capability Prodrive has secured the first phase of a Dakar Rally Raid motorsport programme for the Bahrain Sovereign Wealth Fund. This has already created new roles for engine development within this programme. In addition, this programme will support creation of additional roles in other skill sectors.</p> <p>In total there are about 25 design engineers currently working on the project of which 1/3rd are powertrain related. Going forward there will be around 35 people required to operate the team which 20 will be new roles and about 5 of these will be powertrain related. Those recruited to date are already included in the above reported figures.</p> <p>We are now discussing further projects with the client including a road car and military vehicle</p>

Oxfordshire Local Enterprise Partnership Operating Plan 2020/21

LGF3	<p>Oxford Plant Science Innovation Centre</p> <p>University of Oxford</p>	<p>The creation of an interconnected centre for innovative research and development to address challenges in agriculture and forestry</p>	<p>The refurbishment of research facilities within the Department for innovative research and development in the fields of plant health and resilience</p> <p>The creation of 9 new jobs within the University</p> <p>2 spin out companies creating 10 new jobs in total</p>	<p>IT infrastructure for innovative research and development in the fields of plant health and resilience</p> <p>Development of Genomics facility</p>	<ul style="list-style-type: none"> - The interconnected centre of innovative and entrepreneurial research in plant science has been established. Its success is highlighted in the achievements below. (Dolan/Kelly/Mackay) - The refurbishment of Innovation lab and office spaces is complete (Dolan) - The creation of 9 new jobs within the University is complete (Dolan/Kelly/Mackay) - Spin out company (1) – MoA Technology – created with 20 new jobs (Dolan). This number surpasses our proposed number of jobs that we predicted would result from this programme (10). A further funding round is near completion (end August 2020). It is anticipated that five further jobs will be generated by the beginning 2021. This new funding will see the company funded until Q3 2022. There is a steady stream of patents being filed which are generating value for the company. - Spin out company (2) has been developed (Kelly). Funding is agreed in principle and the company will be formed in the last quarter of 2020. - The establishment Genomics facility is complete and up and running (McKay). The Genomics facility is the basis of a commercial service provision programme for Forestry (which will not be a spin out company). This surpassed our proposed goals. - IT infrastructure to support the three strands of research is 98% complete. The IT infrastructure has been instrumental in carrying out the research leading to the two spin outs and the commercial service provision programme in Forestry.
