OXFORDSHIRE LOCAL ENTERPRISE PARTNERSHIP LIMITED

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 MARCH 2019

1 Accounting policies

Company information

Oxfordshire Local Enterprise Partnership Limited is a private company limited by guarantee incorporated in England and Wales. The registered office is First Floor, Jericho Building, City of Oxford College Campus, Oxpens Road, Oxfordshire, OX1 1SA.

1.1 Accounting convention

These financial statements have been prepared in accordance with FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" ("FRS 102") and the requirements of the Companies Act 2006 as applicable to companies subject to the small companies regime. The disclosure requirements of section 1A of FRS 102 have been applied other than where additional disclosure is required to show a true and fair view.

The financial statements are prepared in sterling, which is the functional currency of the company. Monetary amounts in these financial statements are rounded to the nearest £.

The financial statements have been prepared under the historical cost convention, modified to include the revaluation of freehold properties and to include investment properties and certain financial instruments at fair value. The principal accounting policies adopted are set out below.

1.2 Income and expenditure

Income and expenses are included in the financial statements as they become receivable or due.

Expenses include VAT where applicable as the company cannot reclaim it.

1.3 Cash at bank and in hand

Cash at bank and in hand are basic financial assets and include cash in hand, deposits held at call with banks, other short-term liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities.

1.4 Financial instruments

The company has elected to apply the provisions of Section 11 'Basic Financial Instruments' and Section 12 'Other Financial Instruments Issues' of FRS 102 to all of its financial instruments.

Financial instruments are recognised in the company's balance sheet when the company becomes party to the contractual provisions of the instrument.

Financial assets and liabilities are offset, with the net amounts presented in the financial statements, when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

Basic financial assets

Basic financial assets, which include debtors and cash and bank balances, are initially measured at transaction price including transaction costs and are subsequently carried at amortised cost using the effective interest method unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest. Financial assets classified as receivable within one year are not amortised.

Classification of financial liabilities

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.

1 Accounting policies (Continued)

Basic financial liabilities

Basic financial liabilities, including creditors, bank loans, loans from fellow group companies and preference shares that are classified as debt, are initially recognised at transaction price unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future payments discounted at a market rate of interest. Financial liabilities classified as payable within one year are not amortised.

Debt instruments are subsequently carried at amortised cost, using the effective interest rate method.

Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Amounts payable are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities. Trade creditors are recognised initially at transaction price and subsequently measured at amortised cost using the effective interest method.

1.5 Taxation

The company operates as a not for profit entity, it does not carry on a trade for tax purposes, as a result, the net surplus arising from these activities is not trading and is exempt from corporation tax. The company is liable to corporation tax on bank interest and other investment income.

1.6 Employee benefits

The costs of short-term employee benefits are recognised as a liability and an expense, unless those costs are required to be recognised as part of the cost of stock or fixed assets.

The cost of any unused holiday entitlement is recognised in the period in which the employee's services are received.

Termination benefits are recognised immediately as an expense when the company is demonstrably committed to terminate the employment of an employee or to provide termination benefits.

Payments to defined contribution retirement benefit schemes are charged as an expense as they fall due.

1.7 Government grants

Government grants are recognised at the fair value of the grant received or receivable when there is reasonable assurance that the grant conditions will be met and the grants will be received.

A grant that specifies performance conditions is recognised in income when the performance conditions are met. Where a grant does not specify performance conditions it is recognised in income when the proceeds are received or receivable. A grant received before the recognition criteria are satisfied is recognised as a liability.

7 Related party transactions

In the year costs amounting to £1,552,947 (2018: £1,308,234) were recharged to Oxfordshire Local Enterprise Partnership Limited by Oxfordshire County Council. These costs were funded from Grant Income received and held on behalf of the company by Oxfordshire County Council, in their role as the company's Accountable Body. At the end of the financial year Oxfordshire County Council held a further £1,281,955 (2018: £1,563,408) of income received on behalf of the company and not yet drawn down.

	Main LEP	SFA Skills	LABGI	GPF Revenue	Total
Balance b/f	564,141	109,439	198,808	691,020	1,563,408
Interest	-	-	-	104,445	104,445
Drawdowns	(185,745)	(1,345)	(198,808)	-	(385,898)
Balance c/f	378,396	108,094	-	795,465	1,281,955

In addition, £625,000 was drawn down from the Science Vale Enterprise Zone 1 (EZ1) Retained Business Rates to support the ongoing operating costs of the company. This sum was approved and recorded through the formal budget setting process, governed by Finance and Audit Committee and the Board. This decision was taken in accordance with the terms of the Memorandum of Understanding between OXLEP, the Vale of White Horse District Council and Oxfordshire County Council.

As with all Local Enterprise Partnerships, funding for core activities comes from the Ministry of Housing, Communities and Local Government. This Ministry also channels the company's EU project funding. Payment of these amounts is dependent on meeting the governance and transparency criteria set out by the Ministry, who have a representative on the company's Board as an observer.

8 Other Reserves

The other reserves figure in the balance sheet of £297,339 includes unallocated funds from the EZ1 Retained Business Rates drawdown and unallocated LABGI funds, ring-fenced for an EU Programme.

The equivalent figure was recognised as deferred income in the comparative period.

Following a review of the funds not utilised in the current period and discussions with our Accountable Body, it has now been determined appropriate to recognise these aforementioned unallocated funds as reserves as opposed to deferred income.
